<input type="checkbox"/>	8	Banner-magento2-1			slider1	Dec 20, 2015, 8:36:00 AM	Dec 21, 1975, 8:36:00 AM	Disabled	Edit
<input type="checkbox"/>	9	Banner-magento2-2			slider1	Dec 21, 2015, 8:46:00 AM	Dec 21, 2075, 8:46:00 AM	Enabled	Edit
<input type="checkbox"/>	10	Banner-magento2-3			slider1	Dec 21, 2015, 8:47:00 AM	Dec 21, 2075, 8:47:00 AM	Enabled	Edit
<input type="checkbox"/>	11	Banner-magento2-4			slider1	Dec 21, 2015, 8:48:00 AM	Dec 21, 2075, 8:48:00 AM	Enabled	Edit

4) After creating the banners and sliders the front-end will look like this.

Note : For calling the extension in front-end, this code will help you for that -

Add code below to a template file -

```
$this->getLayout()->createBlock("Evince\Mainslider\Block\SliderItem")->setSliderId(yoursliderid)->toHtml();
```

You can put a slider on a cms page. we put a slider with slider_id is yoursliderid on a cms page

-

```
{{block class="Evince\Mainslider\Block\SliderItem" name="mainslider.slidercustom" slider_id="yoursliderid"}}
```

Please copy and paste the code below on one of xml layout files where you want to show the banner. Replace the yoursliderid variable with your own slider Id -

```
<block class="Evince\Mainslider\Block\SliderItem">
    <action method="setSliderId">
        <argument name="sliderId" xsi:type="string">yoursliderid</argument>
    </action>
</block>
```
