

Evince Category Import

User Manual

Support:
support@evincedev.com

Configure Extension :

Go to System -> Import/Export -> Dataflow- Advanced Profiles

The screenshot shows the Magento System menu. The 'System' tab is selected. The menu items are: My Account, Notifications, Tools, Web Services, Design, Import/Export, Manage Current, Transactional E, Custom Variabl, Permissions, Magento Connect, Cache Management, Index Management, Manage Stores, Order Statuses, and Configuration. The 'Import/Export' menu is open, showing sub-items: Import, Export, Dataflow - Profiles, and Dataflow - Advanced Profiles. A red arrow points from a yellow text box below to 'Dataflow - Advanced Profiles'. The text box contains the instruction: 'For import you category CSV file, first go to System -> Import/Export -> Dataflow- Advanced Profiles'. The footer of the page reads 'Magento ver. 1.9.0.1'.

For import you category CSV file, first go to System -> Import/Export -> Dataflow- Advanced Profiles

Magento ver. 1.9.0.1

- Now click on Click on Add New Profile button to add new profile.

	Created At	Updated At	Action
