Include order attributes into shipment (packing slip)

Include order attributes into invoice

Invoices and Shipments

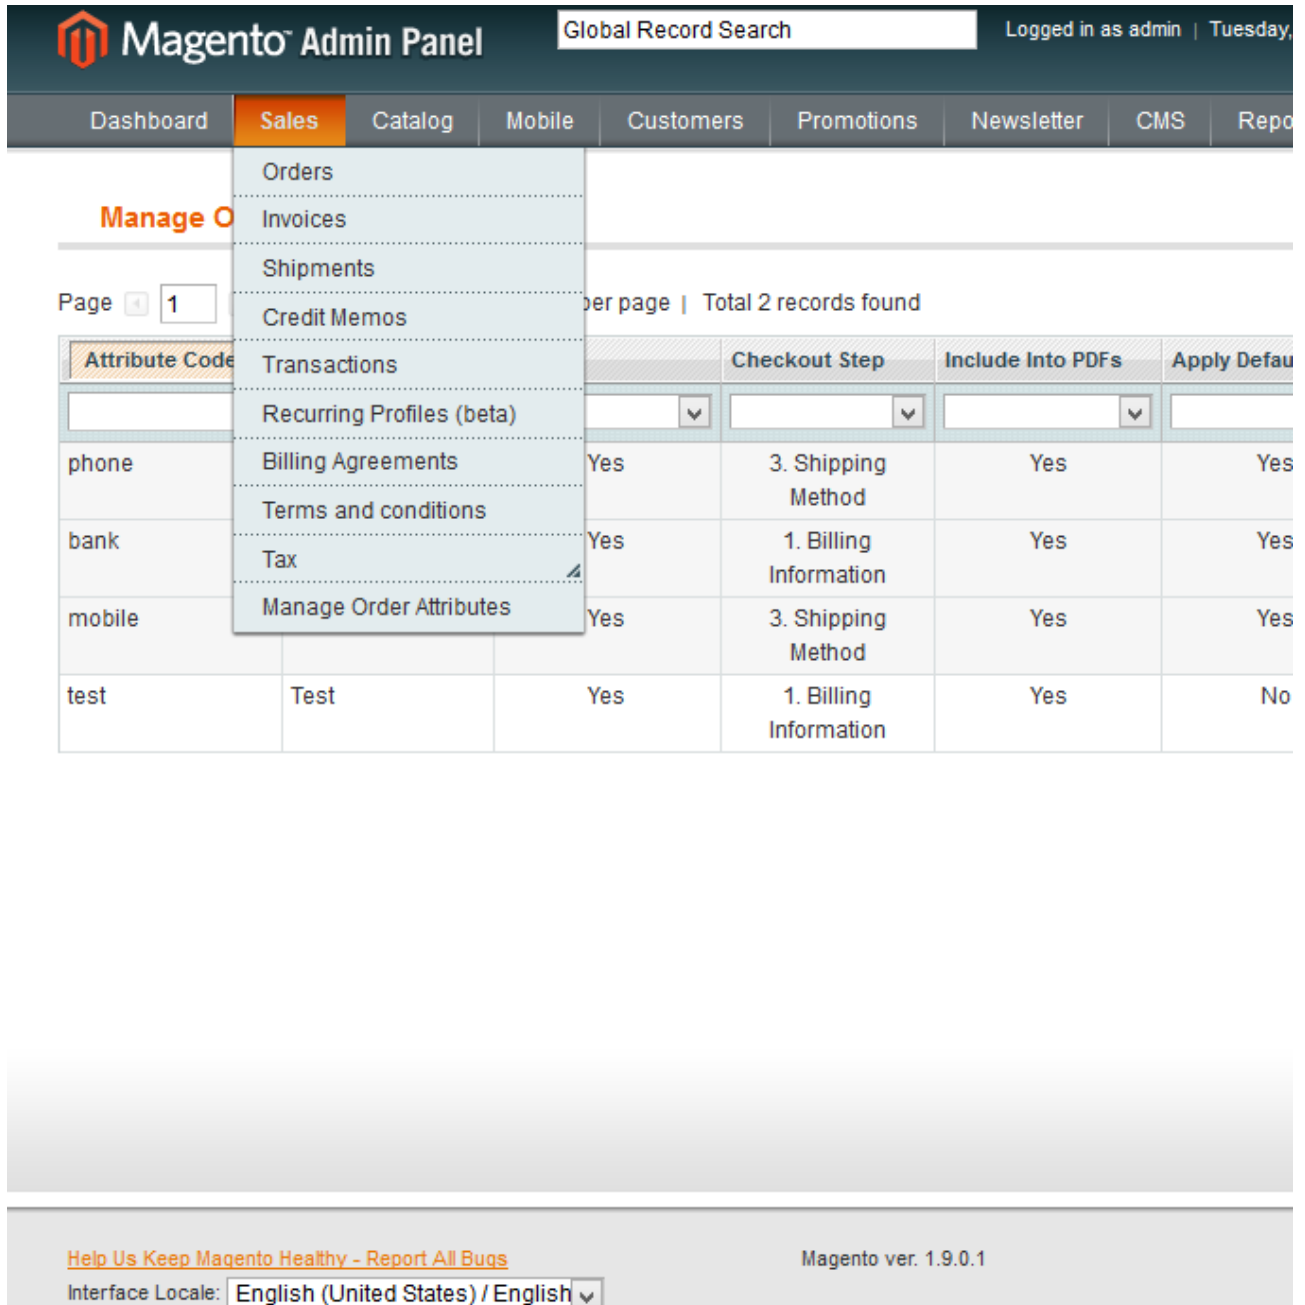

Dependent Drop-Downs

Use AJAX for dependent drop-downs

Order Attributes system Configuration Settings

2. Manage Order Attribute :

Go to Sales -> Manage Order Attributes
Here You can Add or Edit Order Attributes

The screenshot displays the Magento Admin Panel interface. At the top, there is a navigation bar with the following tabs: Dashboard, Sales (highlighted), Catalog, Mobile, Customers, Promotions, Newsletter, CMS, and Reports. A search bar labeled 'Global Record Search' is positioned to the right of the navigation bar. The user is logged in as 'admin' on a Tuesday.

The 'Manage Order Attributes' menu is open, showing a list of options: Orders, Invoices, Shipments, Credit Memos, Transactions, Recurring Profiles (beta), Billing Agreements, Terms and conditions, Tax, and Manage Order Attributes (highlighted).

Below the menu, a table displays the list of order attributes. The table has the following columns: Attribute Code, Attribute Name, Attribute Type, Checkout Step, Include Into PDFs, and Apply Default. The table shows two records:

Attribute Code	Attribute Name	Attribute Type	Checkout Step	Include Into PDFs	Apply Default
phone		Yes	3. Shipping Method	Yes	Yes
bank		Yes	1. Billing Information	Yes	Yes
mobile		Yes	3. Shipping Method	Yes	Yes
test	Test	Yes	1. Billing Information	Yes	No

At the bottom of the page, there is a footer with the text 'Help Us Keep Magento Healthy - Report All Bugs' and 'Magento ver. 1.9.0.1'. The interface locale is set to 'English (United States) / English'.
