Admin Configuration

This extension is use for list of tumblr items in your site

Go To **Admin > Configuration > Tumblr** add your **Tumblr account username** and **Tumblr account URL** for view tumblr list of item on front side.

The screenshot shows the Magento Admin interface. At the top, there is a navigation menu with items like Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Our Team, Tumblr, FAQs, Testimony, Humphrey, Showgallery, Reports, and System. Below the menu is a notification bar with a 'Latest Message' and a notification count. The main content area is titled 'Tumblr' and contains a 'Tumblr Integration' section with two input fields: 'Tumblr account username' (value: testtesting058) and 'Tumblr account URL' (value: http://evincedev.tumblr.com). A 'Save Config' button is visible in the top right corner of the configuration area. On the left side, there is a 'Configuration' sidebar with a tree view showing 'EVINCE - EXTENSIONS' and 'GENERAL' categories.

Current Configuration Scope: Default Config [Manage Stores]

Creating an e-commerce solution from scratch can be cost and time-prohibitive. That's why we prefer to customize one of the many existing e-commerce solutions to fit your needs. We begin by choosing from available platforms and then strategically select shopping cart applications that will deliver the kind of results your organization needs. We then customize these
