Auto Approval Review

Magento 2.x

Extension User Guide

Official extension page: Auto Approval Review

Introduction: Auto Approval review allows you to automatically approve customer reviews based on customer group. By default, in Magento 2 customer product reviews display in product page If Its approved by store owner from backend panel, but sometimes store owner need to approve, review(s) automatically because of lack of time. To manually approve reviews or some customer group(s) (i.e. wholesale group) doesn't need any approval for reviews.

This extension allows store owners to auto approve the customer reviews based on customer group and it allows to change the notification message from the backend.

All Features List

- Enable/Disable from the backend.
- Very Easy to save the configuration for Auto approve review extension.
- You can change the success message from the backend.
