

COD Availability

Magento 2.x

Extension User Guide

Official extension page: [COD Availability](#)

Introduction: Cash On Delivery is a type of transaction in which the customer makes payment to shipping carrier when receiving the good. This payment method is popular and convenient for buyers who do not prefer online payment methods. In many cases, admin wants to have an option to restrict Cash On Delivery option for a specific location due to unavailability of service. This extension allows the admin user to list down the Zip/Postal Code where the product will not have Cash On Delivery option. The availability of products shipping and availability of COD will be displayed automatically of users who are logged in by existing zip code/postcode.

Admin can import multiple postcodes/zip codes by using the simple .csv file from the back-end. Admin can restrict cash on delivery as payment methods based on zip code. The product detail page has a COD availability checker feature to check if the COD is available for a given zip code. This can also display the estimated delivery time which can be configured for each postcode directly from backend configuration area.

Main Features

- Admin can change COD success message & COD error message from setting page.
- Enable or disable COD availability from admin.
- Import multiple postcodes data by uploading .csv file.
- The customer can use “Zip Code” field to check shipping availability on the front-end.
- This module gives relaxation to customizing Success/Failure message of service availability.
- It provides you to set different Zip/Postal Code for shipping and Cash On Delivery restriction.

➤ Backend Functionality

1. Configuration

The screenshot shows the 'Configuration' page in the EVINCEMAGE backend. On the left is a sidebar menu with options: STORE LOCATOR, DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, EVINCEMAGE'S FAQUES, OUR TEAM, CONTENT, COD AVAILABILITY, and a bar chart icon. The main content area is titled 'Configuration' and contains a sub-section 'COD Availability Settings'. This section has a 'Module Enable' dropdown set to 'Yes', a 'Success message' text box containing 'COD is available', and an 'Error message' text box containing 'COD is not available! on'. A yellow callout bubble points to the 'Module Enable' dropdown with the text: 'To enable the extension please go to Store >> configuration >> Evincemage >> COD availability'. Another yellow callout bubble points to the 'Success message' and 'Error message' text boxes with the text: 'You can change the success message as well as error message'. A red 'Save Config' button is located in the top right corner of the configuration area.

Figure 1 – Configuration

- To enable the extension please go to **Store >> Configuration >> Evincemage >> COD availability.**
- Here you can change the **success message** as well as the **error message.**

2. Zip code Manager

The screenshot shows the 'Zipcode Manager' interface. On the left is a sidebar with navigation links: STORE LOCATOR, DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, EVINCEMAGE'S FAQUES, OUR TEAM, and CONTENT. The main header includes a search icon, a notification bell with '3', and a user profile 'admin'. Below the header, there are two orange buttons: 'Import Zipcode' and 'Add Zipcode'. A yellow callout bubble points to these buttons with the text: 'Here you can 'add' or 'import' the zip code'. Below the buttons is a search bar labeled 'Search by keyword' and an 'Actions' dropdown. A yellow callout bubble points to the search bar with the text: ''COD' option will display only for these zip code which is added by admin'. To the right of the search bar are 'Filters', 'Default View', 'Columns', and 'Export' options. Below these is a pagination control showing '20 per page' and '1 of 1'. The main content is a table with the following data:

<input checked="" type="checkbox"/>	ID	Zip Code	Days	Status	Created	Modified	Action
<input type="checkbox"/>	1	110016	6	Enabled	Apr 27, 2018 11:29:33 AM	Apr 27, 2018 11:29:33 AM	Select
<input type="checkbox"/>	2	110017	7	Enabled	Apr 27, 2018 11:29:33 AM	Apr 27, 2018 11:29:33 AM	Edit
<input type="checkbox"/>	3	110018	8	Enabled	Apr 27, 2018 11:29:33 AM	Apr 27, 2018 11:29:33 AM	Delete
<input type="checkbox"/>	4	110019	4	Enabled	Apr 27, 2018 11:29:33 AM	Apr 27, 2018	
<input type="checkbox"/>	5	110015	5	Enabled	Apr 27, 2018 11:29:33 AM	Apr 27, 2018	

A yellow callout bubble points to the 'Action' column of the table with the text: 'You can edit or delete the particular zip code'. The 'Action' column contains a 'Select' dropdown menu with options 'Edit' and 'Delete'.

Figure 2 – Zip code Manager

- Here is the list of **Zip code**. The COD option will display only for the zip code which is added by the admin.
- You can **import** or **add** the new zip code.
- There is also the option for **edit** and **delete** the particular zip code.

3. Import Zip code

The screenshot displays the 'New Zipcode' page in the EvinceMAGE admin panel. A sidebar on the left contains various navigation icons. The main content area has a header with a search icon, a notification bell, and a user dropdown. Below this, there are 'Back', 'Reset', and 'Save' buttons. A yellow callout box highlights the 'Choose File' button, indicating that administrators can import multiple zip codes using a simple '.csv' file. The 'General Information' section is currently selected, showing a file upload area with the text 'File Choose File No file chosen' and a 'Download Sample File' link. The footer includes copyright information for Magento 2018 and links for 'Account Activity' and 'Report Bugs'.

Figure 3 – Import Zip code

- The admin can **import multiple zip code** by using simple **' .csv'** file.

4. Add new Zip code

The screenshot shows the 'New Zipcode' page in the EvinceMAGE admin interface. The left sidebar contains navigation links: STORE LOCATOR, DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, EVINCEMAGE'S FAQUES, OUR TEAM, CONTENT, and COD. The main content area is titled 'New Zipcode' and includes a search icon, a notification bell with '3' alerts, and a user profile 'admin'. Below the title is a breadcrumb trail and a 'Save Zipcode' button. The form is divided into two sections: 'ZIP CODE' and 'General Information'. The 'General Information' section contains three fields: 'Zip code' (with a red asterisk and the value '110016'), 'Days' (with a red asterisk and the value '5'), and 'Status' (a dropdown menu with options 'Disabled', 'Enabled', and 'Disabled', where 'Disabled' is selected). A yellow callout box with a speech bubble icon points to the form with the text 'Here you can add new zip code'. At the bottom of the page, there is a copyright notice 'Copyright © 2018 Magento, Inc. All rights reserved.' and a version notice 'Magento ver. 2.1.11' with links for 'Account Activity' and 'Report Bugs'.

Figure 4 – Add new Zipcode

- Add new Zip code from here and set the status like **‘enabled’** or **‘disabled’**.

➤ Frontend Functionality

5. Product Detail Page

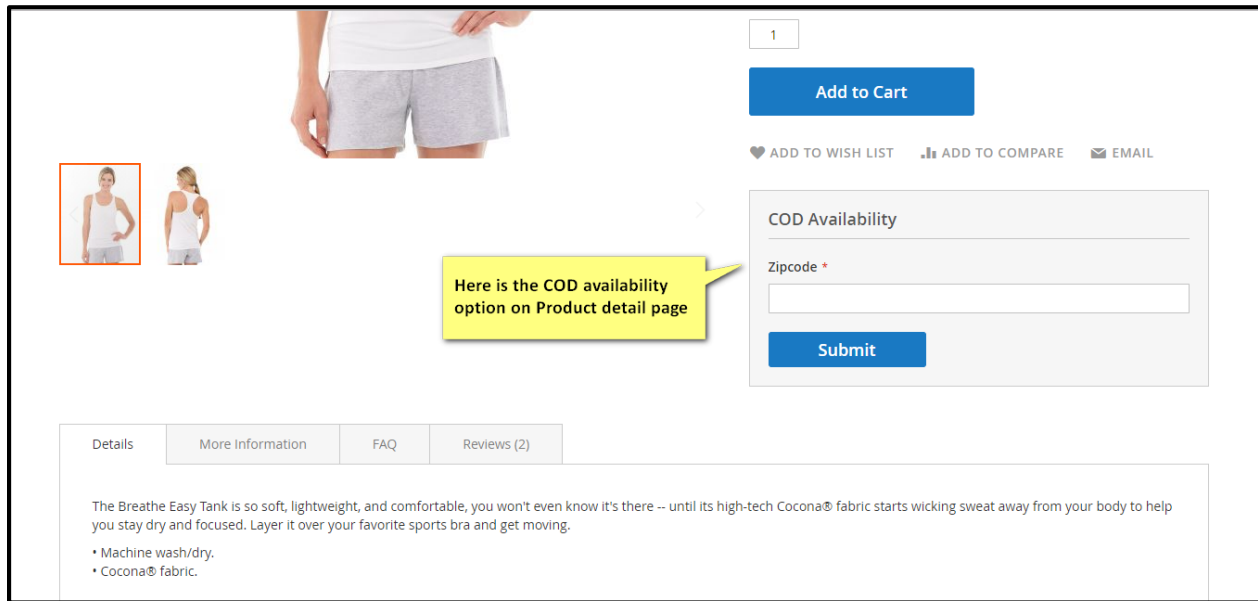

Figure 5 – Product Detail Page

- COD availability option will be displayed on **product detail page** where you just have to enter the zip code and **result will be displayed** on the same page.

5.1 Product Detail Page

Figure 5.1 – Product Detail Page

- Here is the **‘Success Message’**, if the COD is available for this zip code.

5.2 Product Detail Page

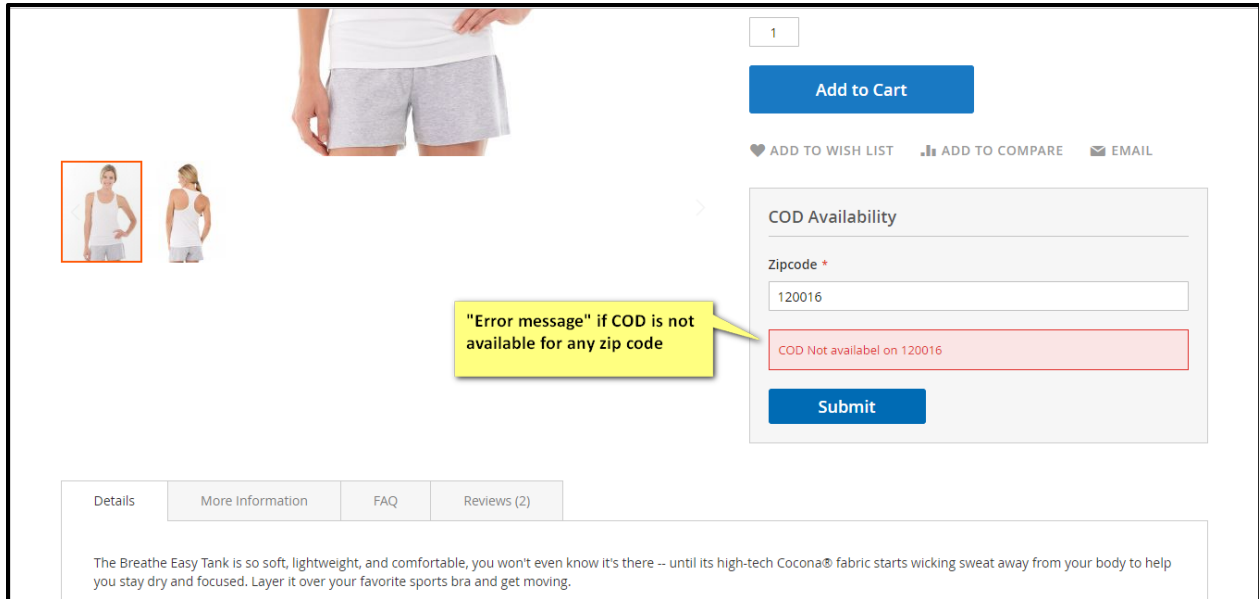

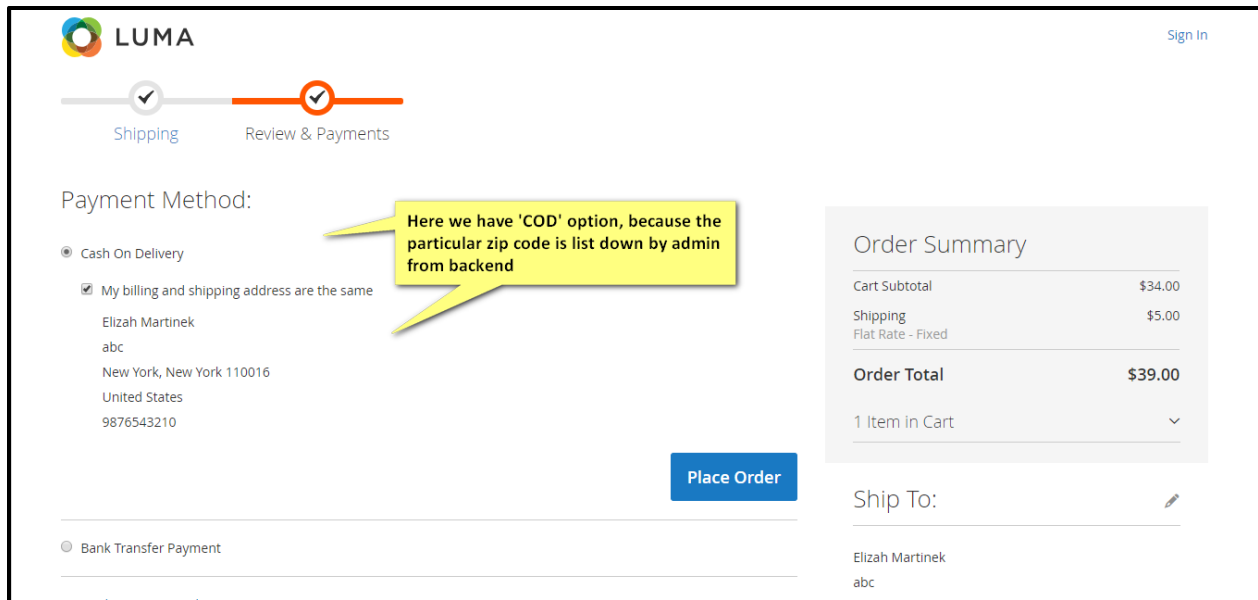

Figure 5.2 – Product Detail Page

- Here is the '**Error Message**', if COD is not available for any zip code.

6. Payment Section

☐ Bank Transfer Payment

Order Summary

Cart Subtotal	\$34.00
Shipping Flat Rate - Fixed	\$5.00
Order Total	\$39.00

1 Item in Cart

Ship To:

Elizabeth Martinek
abc

Here we have 'COD' option, because the particular zip code is list down by admin from backend

Figure 6 – Payment page

- This is the payment section and here you can see the '**COD**' option because this particular zip code is listed by admin from the backend.

6.1 Payment Section

The screenshot shows the LUMA checkout interface. At the top, there's a progress bar with two steps: 'Shipping' (completed) and 'Review & Payments' (active). Below the progress bar, the 'Payment Method' section is visible. It shows 'Bank Transfer Payment' as the selected method. A yellow callout box points to the 'Payment Method' section with the text: 'Here we haven't 'COD' option, because the particular zip code is not list down by admin from the backend'. The callout also points to the shipping address details: 'My billing and shipping address are the same', 'Elizah Martinek', 'abc', 'New York, New York 231116', 'United States', and '9876543210'. To the right, the 'Order Summary' is displayed, showing a Cart Subtotal of \$34.00, Shipping of \$5.00, and an Order Total of \$39.00. Below the order summary, there's a section for '1 Item in Cart' showing a 'Breathe-Easy Tank' for \$34.00. A 'Place Order' button is located at the bottom right of the payment section. A link for 'Apply Discount Code' is at the bottom left.

Figure 6.1 – Payment Section

- Here we haven't '**COD**' option, because the particular zip code is not listed down by admin from the backend.

Evince + Magento = Evince Mage

Our passion is to build strong Magento extension for mobile based and desktop web themes.

- 100+ Magento projects completed
- 100+ Magento extension developed
- 14+ Magento developer
- 99% repeat and referral client ratio
