

# CONTACT MAP

**Magento 2.x**

**Extension User Guide**

**Official extension page: [Contact Map](#)**

**Introduction:** By default, Magento doesn't give this functionality to show Google Map in Contact us page. Using this extension, you can have Google map in contact us page. you have the option to show Google Maps on the contact Us form page. The extension is very easy to install. Every option of the extension can be controlled and configured from the back-end.

Default Contact Us Page With Google Map extension for Magento Provides option to show google map with address pin in the default contact page of Magento. Users can also configure the Height of the map. Consider a scenario where you need to show a Google Map with address and a marker just below the contact Us form. The main benefit of the extension is that the user with basic knowledge of handling Magento can use this plugin with ease.

### Key Features:

- Easy to install
- Text area to put any address in admin
- Manage Map Height option in admin
- Upload custom images of the Marker
- Easy enable disable module
- Custom Google map Pin Icon can be added.
- Users can also configure the Height of the map.
